Heritage Epping

25 WILANDRA DRIVE, EPPING

Heritage Epping is an exquisite and thoughtfully designed home offering the highest quality care and wellness to live with vitality.

Grand, spacious communal areas, large floor-to-ceiling windows and verandas ensure the home is flooded with natural light, creating a warm and bright ambience. It is beautifully furnished and decorated for maximum comfort, creating a peaceful and homely atmosphere for residents and their families to enjoy.

The home's architecture has also been designed with residents' wellbeing at its core. Heritage Epping faces the popular Edgars Creek Trail and the home's layout promotes the stunning wetlands views to enhance the physiological wellbeing of our residents and their guests with many experiencing the tranquility of the countryside.

Residents can spend time with their friends at the on-site café or numerous lounges that are located on each floor. There are also cosy 'snug' areas in the home to enable residents to enjoy some quiet time for themselves.

New Residence Manager Julio Castillo brings strong leadership and clinical governance to the home ensuring exemplary care is provided to each resident, every day.

Heritage Epping

25 WILANDRA DRIVE, EPPING

Heritage Epping is fortunate to have Julio Castillo at the helm bringing extensive health, nursing and management experience.

Julio has transformed the culture of the home and the residents and his team are loving his energy and leadership qualities. He has been in the aged care industry for almost 16 years working across aged care, palliative care, dementia care and healthcare leadership.

“The ‘secret’ to aged care is to have the appropriately skilled staff to treat the residents like your own family, that is to get to know them really well and to understand the residents care needs,” says Julio. “Residential aged care is such a beautiful place. It’s just like your family, a wonderful multicultural environment where you can be friends with everyone.”
